Reads Multiple Codes Semi-Automatically Inside the Shipper Case

A high-speed dynamic camera along with specially designed illumination system reads all 2D Data Matrix codes in a layer. With the addition of each new layer the camera changes its position automatically to focus on the different layer of boxes.

S

SUPPORTS CASE AND PALLET AGGREGATION

Semi-Automatic Aggregation Station scans the 2D Data Matrix codes of the boxes and generates the aggregated SSCC code for the case. It also generates SSCC code for the pallet for defined number of the cases.

Easy and Understandable Software

Carton Serialization Station accompanies VISIOTT's easy-to-operate and understand software. It has highly responsive user interface with added value of human-friendliness.

The screenshot displays the VISIOTT software interface for a Semi Automatic Aggregation station. The interface includes a top navigation bar with icons for Main, Change Password, Log Off, About, and Exit. The main area is divided into several sections:

- Metadata Fields:** A list of fields including Work Order No (2020), Product Name (VISIOTT 250 MG/ML SYRUP), GTIN (06691234567890), Recipe Description, Expiration Date (10/20/2020), Lot No (VISIOTT01), Manufacturing Date (1/10/2020), Integration No, Import Permit Date (1/10/2020), and Import Permit No (0).
- Camera View:** A central video feed showing a pallet of boxes with the number '64/64' overlaid in green.
- Item and Layer Summary:** A table showing counts for Item (64) and Layer (2).
- Case and Pallet Summary:** A table showing counts for Case (0) and Pallet (8).
- Barcode Section:** A field for entering a barcode.
- Bottom Navigation:** A row of buttons for System Management, Note, Work Order Get, Start, Stop, Print Sample Label, InProcess, Code Details, Close WorkOrder, and Close.

Hierarchy Level	Target	Created	Verified	Not Verified	Last Corner Qty	InCorner
Item	1000	0	0	0	0	0
Case	8	0	0	0	0	0
Pallet	8	0	0	0	0	0

Item	Layer
64	2

Case	Pallet
0	8
