

Precision and Compliance in One Solution

VISIOTT TPS has revolutionized traceability with its efficient and stable software solutions, meticulously designed to meet the diverse needs of all industries. These cutting-edge solutions ensure smooth and compliant serialization and aggregation across production, storage, and shipping procedures.

Our traceability software is developed in alignment with international standards and complies fully with traceability regulations set forth by official authorities. VISIOTT TPS's software solutions offer:

- **Seamless Integration:** Easily integrate with existing ERP, MES, or Level 4 systems to optimize your operations.
- **Comprehensive Compliance:** Stay ahead with software built to meet all global traceability requirements.
- **Enhanced Efficiency:** Minimize hardware resources while maximizing data integrity and operational performance.

Whether you're in pharmaceuticals, food, cosmetics, or medical devices, VISIOTT TPS is here to streamline your traceability operations and ensure compliance with ease.

Level 2: Line Manager
Manages hardware and stores serialization data. Posts production results to Level 3 software. Ensures smooth data flow.

Level 3: Plant Manager
Connects Level 2 systems with the facility's ERP system. Collects production data like master data and work orders. Shares information with Level 2 systems. Supports integration with third-party Level 2 and Level 4 systems.

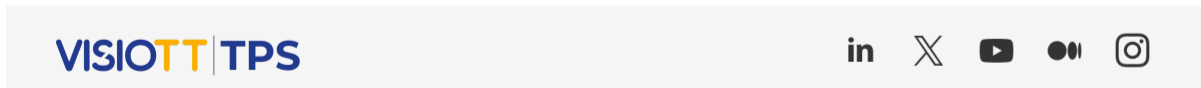

Level 4: Enterprise Manager
Integrates with all Level 3 and Level 5 software. Notifies production, shipment, and storage units. Tracks and manages serial numbers in the supply chain. Reports data to authorities when required.
